About Us

There is no one like Zbigniew Malecki. This brilliant scientist, who was born and raised in the famous city of Krakow, Poland, was graduated from the University in Krakow, Poland with a degree in Science. After spending years in research in various institutions in Poland and Canada he was retained to work on projects for NASA, as well as the University of Waterloo (Research sponsored by Natural Sciences and Engineering Research Council of Canada and the Centre of Excellence for Molecular and Interfacial Dynamics).

His Invention

He has invented and has patents on products that can protect the general public from EMFs and has gone a step further in the world of Magnetopathy, which is a separate field unto itself. These inventions are bringing quality of life back to thousands of people who have been mystified by their lack of energy and increasing illness.

Zbigniew Malecki to the rescue!

His research has provided us with a way to protect our bodies and regenerate the energy required to restore health. He has created neutralizers that can help alleviate the negative effects from EMFs and he has created a method for putting the magnetic energies back into the body, helping build the immune system and creating an overall feeling of wellness.

MicroAlpha Inc. is dedicated to improving your health on this journey through life.

Research

In his research, he discovered that the Earth's Magnetic Field has decreased by approximately 90% over the last four thousand years. This Geomagnetic Field is an Essential Environmental Factor for Life and Health on this Planet. Although we, as humans, have adapted to this loss of natural geomagnetic energy, there is still a corresponding Loss of Physiological Vitality and Efficiency in all the functions of the body.

Earth's Magnetic Field and Health

Many of today's chronic or even fatal diseases have a close relationship with this phenomenon. Within the next 5 to 10 years it is expected that 50% of living persons will have been diagnosed with some form or another of cancer and will have less resistance to infection.

EMFs and Health

EMFs are the other phenomenon that are impacting all living beings on this planet. Very few children today are not affected by ADD or ADHD with the increasingly heavy exposure to today's EMFs – they surround us everywhere we turn.

(all people living in protected area like room, apartment or home)

Increase your chances to survive ANY VIRUS and BACTERIA infection and prevention. Strong Immune System is a key to success:

- Boosts the Immune System to above the normal level
- Improving Immunity - These days “Immunity” is recognized as a privilege rather than a normal state of our body.

About virus

People with low Immune System (weak or weaker) are in the group of highest risk and severe consequences of VIRUS infection.

Generally, symptoms are more severe in people who have weakened immune systems, older people and those with long-term health conditions such as diabetes.

Infections were most common in the winter, were distributed across all age groups, and were less common than those caused by rhinovirus, influenza, or respiratory syncytial virus but more common than other respiratory viruses; coinfections were relatively common, particularly in young children.

For those with a weakened immune system, the elderly and the very young, there's a chance the virus could cause a lower, and much more serious, respiratory tract illness like a pneumonia or bronchitis.

Improve your Immune System!

For those with a weakened immune system, the elderly and the very young, there's a chance the virus could cause a lower, and much more serious, respiratory tract illness like a pneumonia or bronchitis.

Weak organism (older people, children and everyone with health problems and low immune system) has a reduced amount of chances to fight severe infections like coronavirus.

Your body needs to have energy to fight. This energy is created during resting time. You are wasting a significant portion of newly created energy if your body needs to fight EMFs during rest. This may be a background for number of health problems (including fibromyalgia, chronic fatigue syndrome and may more).

Our protection provides free from harmful EMFs space (like apartment, home or single room) where you have a decent rest creating increase amount of energy (improving radically immune system). This allows everyone with many chronic health problems recover in a few months (like fibromyalgia in 3 months).

In other words – [EMF Total Protection](#) radically improve your immune system.

Using our products increase your chances to survive ANY VIRUS infection and prevention. Strong Immune System is **the key** to success. With our products Immune System can be significantly improved. This was proved by number of our customers during 20 plus years.

Why?

Counteract EMFs allows your body regenerate energy, makes you stronger, improves your Immune System, makes your resistant much higher. Also reduced or recover from [EMF Exposition Symptoms.](#)

Symptoms of EMF exposition

One thing is known for sure - this protection works 100%.

Comprehensive list of symptoms of exposition to EMFs (natural and man-made) is here - [CLICK](#)

If you need assistance - [CLICK](#)

Just One Solution:

Our products make all EMFs harmless allowing full recovery.

Solution is described on pages listed below. Depends on your observations you should have

- Very basic and "a must" set of products.
 - Neutralizer for [PROTECTION FROM BELOW](#) surface of your home or apartment
 - and [PERSONAL PROTECTION](#)
- Best protection will be achieved with combination of
 - [TOTAL HOME PROTECTION](#)
 - and [PERSONAL PROTECTION](#) described on those pages
- If you know about cell tower, power transformer, smart meter, source of WiFi or power line near your home you should use products described in first paragraph and
 - Neutralizer ([SIDE PROTECTION](#)) providing protection from mentioned above sources of EMF.

EMF protection for specific area:

- [Single Room Protection](#)
- [Apartment Protection](#)
- [Home Protection - below 2,500 sq ft - \(including basement\)](#)
- [Large Home Protection - above 2,500 sq ft - \(including basement\)](#)

Home EMF protection:

- [Total Home Protection](#)
- [EMF Protection from Below](#)
- [EMF protection from Above](#)
- [EMF Side Protection Set](#)

Personal protection and treatment:

- [Personal EMF protection - Peace Ball](#)
- [Magnetopathy](#) helps you recover from health problems
- [Peace Disk](#) - tool used by Magnetopathic therapy

Used Terms:

Most of EMFs work 24/7 affects you the same way during the day and at night. Night is worst; your body is resting, recovering and preparing energy for the next day. All EMFs passing through your home affect that.

Protection described on this page makes all of invading EMFs 100% harmless.

Neutralizer

<https://www.microalpha.com/neutralizer.html>

MicroAlpha's Neutralizer is a device that protects a large area from the negative effects of Electromagnetic Fields [EMFs] from any direction - above, below and sides - without compromising any passing through EMFs e.g. like cellular phone transmission, smart meter communication, WiFi,

power lines etc. It is like a water filter. EMF energy passing through shielding is harmless to any living creature.

Basic Neutralizers (B)	Regular Neutralizers (R)
<ul style="list-style-type: none">• Basic Neutralizer has the same range of protection like regular one.• Difference is in amount of energy Basic Neutralizer can handle.• It is design to be less expensive that regular Neutralizer.• The costs of it are combined with the effectiveness of protection not compromising minimum safety for protected by Basic Neutralizer zone. <p>Basic Neutralizer provides protection against negative effects of EMFs that are sourced in an area below the device position level.</p>	<ul style="list-style-type: none">• Regular Neutralizer is design to protect anything in specific (defined for each model) range of protection. Protection area is circular shape.• Method of protection was developed base on quantum physics knowledge.• Essential meaning of protection is to absorb “BAD” energy from EMF’s and utilize it by discharging to ground via grounding connection. <p>This provide free from dangerous radiation zone in the range of protection (e.g. your home).</p>

Higher requirements than listed here or unusual range units require special order and delivery times for up to 2-5 weeks.

Orders require 3 to 7 days to process plus shipment

We can supply single units with a range higher than 2,000 meters (6,562 ft) in radius protecting an area larger than 12.56 square km or 4.9 square miles

EMF Protection from Below or Protection from Below

<https://www.microalpha.com/below.html>

One of the most important is the protection from EMF radiation razing from below of your home. Man-mad EMFs penetrate soil below our feet (solution for grounding power lines and power equipment) in addition to natural sources of these EMFs. This affects all our living space. This type Neutralizer provides horizontal EMF protection filtering everything rising up from below the protected area. All EMFs passing through are 100% harmless.

EMF Protection from Above, Above Protection, Protection from Above or Above

<https://www.microalpha.com/above.html>

Protection from EMF Radiation coming down from the sky

- Are you invading by Wi-Fi from unwelcome Cell Tower?
- Are you disturbing by Wi-Fi and EMFs from Satellite?
- Are you affected by unwanted EMF Radiation Entering by Force Through your home Roof?

Global experiment on human race affects all of us. Why should you suffer from EMFs radiation attacking your home through the roof? This type Neutralizer provides horizontal EMF protection filtering everything affecting you from above the protected area. All EMFs passing through are 100% harmless.

EMF Protection from Specific Direction, EMF Side Protection or Side Protection

<https://www.microalpha.com/side.html>

- Are You Surrounded by Smart Meters Trespassing Your Privacy at Home?
- Regardless of Cell Towers Your Neighbors may have Wi-Fi at Home!
- What About Power Lines Close to Your Home?
- Is Power Transformer Located in Close Distance?
- We Have Adequate Protection Products!

Protection from very specific source and direction of EMFs like Cell Tower, Power Line, Power Transformer, Smart Meter or any other EMFs source (e.g. your neighbors Wi-Fi etc.). This type Neutralizer creates filtering wall like your home wall protecting you from this direction. All EMFs passing through this wall are 100% harmless.

Total EMF Protection, Total Home Protection, Total Area Protection or Total Protection

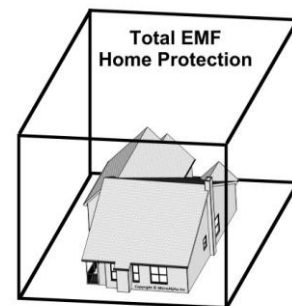

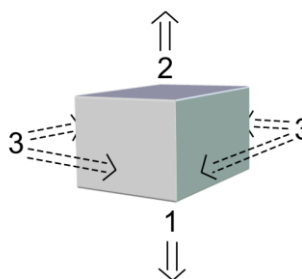

<https://www.microalpha.com/total.html>

Set of Neutralizers provides total defense against any Cell-Towers, Antennas or other EMFs from surrounding your house, apartment or other facility space.

We divided Neutralizers into 3 groups as you can see pictured above.

Protected by Neutralizers

First group [1] is designed to protect against EMF "BAD_RADIATION" approaching from Cell Towers or Antennas below the Neutralizer's position. This Neutralizer should be located on the lowest level of protected area (e.g. basement floor). You need have no concern that moisture or water invading your basement will affect the Neutralizer's functioning, as our Neutralizers are 100% waterproof.

Second group [2] of Neutralizers works like an umbrella and protects from all "BAD_RADIATION" from above from Tower or Antennas (including cosmic "BAD_RADIATION") with the exception explained below. Neutralizer from this group should be located in the highest level of protected area (building etc.) above your head but below Cell Antenna or Tower installed on the roof position – e.g. on upper shelf in your closet or attic.

Third group [3] protects from any EMFs invading your house (protected object) from any side from Cell Towers or Antennas (also Smart Meters, Wi-Fi, etc.). This set of Neutralizers works like walls surrounding your living space. Here you have a variety of possible options. We suggest the set of two dual modules located as you see on the picture above in opposite corners of protected object.

Sets of Neutralizers listed below are for any typical home, apartment, office and workplace. Please refer to total square footage of object you would like to protect (including basement).

All about 5G, 6G, 7G and 8G cellular and mobile networks and Protection

What is 5G Network?

5G is the 5th generation mobile network. It is a new global wireless standard after 1G, 2G, 3G, and 4G networks.

Speed

5G speeds will range from ~50 Mbit/s to over a gigabit/s.

Historical facts:

- First generation - 1G - 1979: 1G - analog voice.
- Second generation - 2G - 1991: 2G Lurch (GSM)
- Third generation - 3G - 2000: 3G - mobile data.
- Fourth generation - 4G LTE - 2009: 4G - mobile broadband.

1G, 2G, 3G, and 4G all led to 5G, which is designed to provide more connectivity than was ever available before.

5G is a unified, more capable air interface. It has been designed with an extended capacity to enable next-generation user experiences, empower new deployment models and deliver new services.

5G is impacting every industry and health.

Do we need faster internet, mobile internet and cellular networks?

Corona Virus (Covid19) changed whole world. Many aspects of life, learning and work were moved to home.

More than ever before, the sixth generation of mobile networks will integrate a set of previously disparate technologies, including deep learning and big data analytics. The introduction of 5G paves the way for much of this convergence.

6G Network

6G will have big implications for many government and industry solutions in public safety and critical asset protection such as:

- Threat detection
- Health monitoring
- Feature and facial recognition
- Decision making (in areas like law enforcement and social credit systems)
- Air quality measurements
- Gas and toxicity sensing

The race to 6G will draw the attention of many industry constituents, such as major test and measurement vendor Keysight Technologies who has also indicated a commitment to its development.

- The University of Oulu in Finland is committed to a 6G research initiative referred to as 6Genesis. The project will be conducted for the next eight years and will develop a vision for 2037.
- South Korea's Electronics and Telecommunications Research Institute is conducting research on the Terahertz frequency band for 6G and envisions data speeds 100 times faster than 4G LTE networks and 5 times faster than 5G networks.

- The Ministry of Industry and Information Technology (MIIT) in China is directly investing and monitoring the research and development process.
- The United States is planning to open up 6G frequency for R&D purposes pending approval from the Federal Communications Commission (FCC) for frequencies over 95 gigahertz (GHz) to 3 THz.

7G and 8G Networks

7G (seventh-generation wireless) is the inevitable intelligent cellular technology. 7G networks will be able to use higher frequencies and provide substantially higher capacity and much lower latency in communications.

From other side mobile internet is using fastest data transfer it can be able to achieve.

According to Ookla, an agency that examines broadband speed internationally. In just 13 months, Norway has jumped from the 11th position to the top in terms of mobile internet speed. Currently internet speed in Norway 52.6 Mbps. We can say that internet speeds such as 7G or 8G are provided in Norway. Norway is the first country to provide the fastest internet speed in the world, the second fastest internet speed providing country is Netherlands, and the third fastest internet speed provider is Hungary.

Are 5G, 6G, 7G and 8G cellular and mobile networks safe?

All lucrative benefits of mobile networks increased speed are great. But always is the second (dark) side of everything. Simplifying like knife. It is a basic tool in everybody's life. From other hand it is a weapon.

The same is with mobile and cellular networks. Technology gives us fantastic opportunities (Modern TV display resolutions include 1280x720 (HD), 1920x1080 (Full HD), 3840x2160 (4K UHD), and 7680x4320 (8K UHD). More specifically: 720p/720i: Resolution of 1280x720 pixels. This is also sometimes referred to as HD, Standard HD, or SHD. ... Also known as 4K UHD (Ultra High Definition). The same is with mobile internet (tablets . . . e.t.c.).

From other hand higher data transfer (higher mobile internet speed) requires more powerful antennas. Range of antennas is decreasing with increased speed of internet network.

This means that we need more smaller, more powerful antennas closer to us in neighborhood.

Closer means higher energy and much easier accessing our homes.

We already know the effects 1, 2, 3 and 4G have had from previous studies.

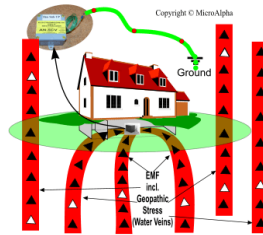

Thinking about EMF impact on our life and health we need to have protection against not invited intruders like EMFs.

Protection

We figured out the triggering aspect of EMFs. Next was obvious – create something removing it from EMFs. Voila! Body is happy, stronger, energy is used properly. Even more – nature is very happy too for provided protection - check pictures from our garden on the bottom of the home page - [CLICK](#).

Yes protection – it works like water filter for water. Dirty water passing through filter becomes clean. The same is with all EMFs – our invention makes them harmless.

This is a base for all our products.

Solution

We created series of products approaching your needs.

Our lines of 5G, 5G+(including 6G), 7G and 7G+ (including 8G) patented products are ready to make them 100% harmless.

Now you may enjoy all those fantastic inventions.

Which protection is "the best" for me?

- 5G EMF Protection – protects from all networks 1G, 2G, 3G, 4G, 5G. All our products are 5G ready
- 5G+ EMF Protection – protects from all networks 1G, 2G, 3G, 4G, 5G and 6G.
- 7G EMF Protection – protects from all networks 1G, 2G, 3G, 4G, 5G, 6G and 7G.
- 7G+ EMF Protection – protects from all networks 1G, 2G, 3G, 4G, 5G, 6G, 7G and 8G.

Peace Ball, EMF Protection Pendant

https://www.microalpha.com/peace_ball.html

- Always Tired?
- Need More Energy?
- Starving for Faster Recovering?
- **Better Life Could Starts Here!**

In addition to Recovery and EMF protection Personal Protection products are substantially more effective than any other Pulsating Magnetic Field products by applying not interrupting therapeutic treatment 24 hour / 7 days a week. It will significantly increase recovery speed.

A Peace Ball is a Personal Active EMF Neutralizer, device that is designed to be worn as a necklace by people. It provides protection against typical EMFs (Electromagnetic Fields) in a person's surrounding area and provides Magnetopathic Therapy.

All products are designed and manufactured in Canada

- Local Magnetopathic Non-Invasive Therapy!
- Works 24/7!
- Much More Effective than Conventional Treatment!
- Can Work with Any Other Therapy!
- No Side Effects!

The PEACE DISK treatment is working locally, could be combined with any other therapy, it is non-invasive and without any side effects. It could be helpful in a variety of health problems, from speeding the healing process to helping with recovery and many, many more.

Internal Structure Regeneration Tablet

<https://www.microalpha.com/tablet.html>

- Food is Radiated in Stores to Makes It Longer Fresh!
- It is exposed to EMFs Like Us!
- Human Body Rejects and Waste Significant Amount of Food Due to EMF Exposition!
- Restoring Original Liquid, Food or Medication Internal Structure
- Allows Much Better Absorption of It!

This device restores original structure of anything exposed to EMF influence.

As a result, our stomach (entire digestive system), liver, kidneys and pancreas can allow a significant portion of all restored food to be processed and used as fuel for your body.

Quantum or Quantum Mechanics based Products

https://www.microalpha.com/just_about.html

This platform gives us opportunity to go beyond classic physics limitations. The results are amazing.

Effectiveness was tested in normal and extreme condition - Neutralizer was installed in bank's vault with 0.6m [2 ft] thick solid metal walls. The range and effectiveness was the same as in open field or dense urban development (tested 25m [82 ft], 50m [154 ft], 100m [328 ft], 250m [820 ft] and 2km [1.24 mile] range of protection)!

Water Life Growth Accelerator

<https://unique-water-life-care.microalpha.com/>

MicroAlpha products are developed as powerful growth accelerators beyond what any solution, fish care, plant food or fertilizer alone can achieve. Any product from "The Only Water Life Growth Accelerator" family combined with solution, plant food or fertilizer achieves results beyond your expectations. It is no one product like our "The Only Water Life Growth Accelerator" on the market.

Basic Neutralizers

- Basic Neutralizer has the same range of protection like regular one.
- Difference is in amount of energy Basic Neutralizer can handle.
- It is design to be less expensive that regular Neutralizer.
- The costs of it are combined with the effectiveness of protection not compromising minimum safety for protected by Basic Neutralizer zone.

Basic Neutralizer provides protection against negative effects of EMFs that are sourced in an area below the device position level.

Regular Neutralizers

- Regular Neutralizer is design to protect anything in specific (defined for each model) range of protection. Protection area is circular shape.
- Method of protection was developed base on quantum physics knowledge.
- Essential meaning of protection is to absorb “BAD” energy from EMF’s and utilize it by discharging to ground via grounding connection.

This provide free from dangerous radiation zone in the range of protection (e.g. your home).

Protect Yourself Against 5G+ (6G . . .) Radiation – Solutions

TOTAL 5G+ PROTECTION

The more powerful, shortwave radiation of 5G will bring about more potent health issues, both because of the smaller, more powerful radiation, and also because of the location of millions more receptor boxes, much closer than they were before.

Cell companies and government regulation are not doing extensive research on the health effects, they are hurry to be the first one to roll out the fastest network. Since it was developed for military use, it hasn't been tested thoroughly enough for public exposure.

6G is on the way to be implemented in short time.

We already know the effects 2, 3 and 4G have had from previous studies.

The 5G network is out now!

Tested solution is here!

Here are only a few results of 5G exposure:

- Changes how we metabolise cells
- Causes psychiatric effects
- Depression
- Anxiety
- Neurodegenerative issues
- Fertility
- It affected male fertility more than female fertility, but damage was noticeable in both
- Changes cell development
- Damages DNA
- Affects the nervous system
- Affects skin

Protect Yourself Against 3G, 4G, 5G, 6G, 7G and 7G+ (8G) Radiation - MicroAlpha Solutions

Which country has 7G+ network?

Norway

Yes, we can say that internet speed is provided in Norway like 7G or 8G network. Norway is a country in the world where internet speed is the fastest

TOTAL 7G+ PROTECTION

The more powerful, shortwave radiation of 5G, 6G, 7G and 8G will bring about more potent health issues, both because of the smaller, more powerful radiation, and also because of the location of millions more receptor boxes, much closer than they were before.

Cell companies and government regulation are not doing extensive research on the health effects, they are hurry to be the first one to roll out the fastest network. Since it was developed for military use, it hasn't been tested thoroughly enough for public exposure.

6G is on the way to be implemented in short time.

We already know the effects 2G, 3G, 4G and 5G have had from previous studies.

The 7G+ network is on the way now!

Tested solution is here!

Here are only a few results of 5G exposure:

- Changes how we metabolize cells
- Causes psychiatric effects
- Depression
- Anxiety
- Neurodegenerative issues

- Fertility
- It affected male fertility more than female fertility, but damage was noticeable in both
- Changes cell development
- Damages DNA
- Affects the nervous system
- Affects skin

<p>Side Protection Set creates filtering space surrounding Cellular Towers as shown on right</p>	
<p>This filtering cage is closed by two additional Neutralizers:</p> <ul style="list-style-type: none"> • Marked (T) from above • And marked (G) from below 	
<p>Gray color represents the area of protection for Neutralizers (T) and (G) narrowed by Side Protection Set of Neutralizers. Horizontal location of mentioned above Neutralizers (T, G) has no restrictions except one – must be inside space limited by filtering walls of Side Protection Neutralizers.</p>	

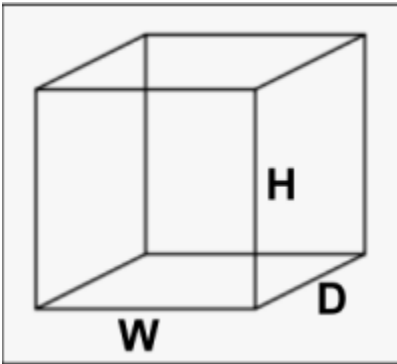

As a final result we created Protection Cage. Any and every radiation transmitted from Cellular Towers is filtered in real time providing harmless EMF environment in surrounding space.

Unfortunately, it is unlikely to have ability to install [T] Neutralizer on the top of Cellular Towers above the antenna as shown on previous pictures

<p>As you see on this picture – top part of the cage is open.</p> <p>This configuration gives the same protection for surrounding Cellular Towers space under one condition.</p>	
<p>Top part of Cellular Towers must be inside the protection cage 10% below the top edge of Protection Walls.</p> <p>The only not filtered part of transmitted signal will be send above the human habitat area as shown on this picture.</p>	

Installation is very simple. Instruction comes with each product. Not require any special tools.

Total protection sets of Neutralizers and prices

Description	Dimensions	Price
1. Cellular Towers Protection set - Cell #23	maximum dimensions (cube): W x D x H = 50m x 50m x 50m [164ft x 164ft x 164ft]	Price: \$ 4,050.00
2. Cellular Towers Protection set - Cell #24	maximum dimensions (cube): W x D x H = 100m x 100m x 100m [328ft x 328ft x 328ft]	Price: \$ 6,375.00
3. Cellular Towers Protection set - Cell #25	maximum dimensions (cube): W x D x H = 250m x 250m x 250m [820ft x 820ft x 820ft]	Price: \$ 11,125.00

Total Farm Protection

Total EMF Protection, Total Home Protection, Total Area Protection or Total Protection

Protected by Neutralizers

Set of Neutralizers provides total defense against any Cell-Towers, Antennas or other EMFs from surrounding your farm or other facility space.

We divided Neutralizers into 3 groups as you can see pictured above.

First group [1] is designed to protect against EMF "BAD_RADIATION" approaching from Cell Towers or Antennas below the Neutralizer's position. This Neutralizer should be located on the lowest level of protected area (e.g. basement floor). You need have no concern that moisture or water invading your basement will affect the Neutralizer's functioning, as our Neutralizers are 100% waterproof.

Second group [2] of Neutralizers works like an umbrella and protects from all "BAD_RADIATION" from above from Tower or Antennas (including cosmic "BAD_RADIATION") with the exception explained below. Neutralizer from this group should be located in the highest level of protected area (building etc.) above your head but below Cell Antenna or Tower installed on the roof position – e.g. on upper shelf in your closet or attic.

Third group [3] protects from any EMFs invading your house (protected object) from any side from CellTowers or Antennas (also Smart Meters, WiFi, etc.). This set of Neutralizers works like walls surrounding your living space. Here you have a variety of possible options. We suggest the set of two dual modules located as you see on the picture above in opposite corners of protected object.

Protection for Animals <https://agriculture.microalpha.com/animals.html>

Happy Balls make our Pets stronger, more energetic, more relaxed, clearing and improving mind and focus as well as enhanced and improved your animal's state of health. That energy can be generated when your home or place where your Pets are resting is protected by Neutralizer.

Our Happy Ball is making our Pets stronger, giving them more energy, helping them relaxed, clearing and improving their minds and focus as well as enhancing and improving their state of health.

This allows their normal energy to return when your home or place where your Pets are resting is protected by Neutralizer.

It is a personal protection designed for animals. It is a variation of personal protection for humans Peace Ball. In addition to EMF protection Happy Ball is improving health and strength of your pet beyond vets ability. It is also used as noninvasive Magnetopathic therapeutic tool.

If you use Happy Ball - Neutralizer must be installed in resting place. Failing to install Neutralizer can lead to overuse of your Animals' energy and stamina.

The Happy Ball is like the predecessor, the Peace Ball, having all the same features as a pulsating magnetic fields:

New and VERY EFFECTIVE Magnetopathic treatment for bees in hives

<https://agriculture.microalpha.com/honeybee-2.html>

Short explanation:

- Bee-2 device provides whole body Magnetopathic Treatment. Each device is designated for one beehive only. It provides abroad spectrum of magnetic pulses frequencies.
- Magnetic waves penetrate whole hive refreshing each and every bee inside. In addition to making them stronger (improving all organs and whole-body functionality) improves fertility and quality of newborn bee generation.
- Pulsating Magnetic Fields penetrate all cells, enhance ion exchange, normalize circulation and increase the oxygen utilization of each cell reaching parts of the body that cannot be influenced efficiently with anything else.

- It is not a miracle, but simply a bioelectromagnetic-based therapy used to accelerate health and recovery improvement. The energy used is on bio-energy level. It supports bee natural biology gentle not invasive way.
- Faster vital energy regeneration and improved body functionality combined with “Total Protection” set surrounding beehives is the best support and solution for mortality prevention.
- We were able to test it in a Bumblebee colony with the same results like with plants, fish and humans. By influencing the bee with magnetic pulses, the Cell functions can be improved considerably. Each cell type is responding to one particular frequency of magnetic pulses (not EMFs). Bee-2 device provide whole spectrum of frequencies required for any living creature on Earth (over 20,000 different frequencies with energy level of 0.01 Pico Gauss (**here is the scale of energy – https://www.microalpha.com/magnetiopathy_scale_of_energy.html**))
- Magnetopathic Therapy uses pulsating magnetic pulses; it is a new and very effective form of physical therapy. It is not a miracle, but simply a bioelectromagnetic-based therapy used to accelerate health and recovery improvement. Magnetopathy is a safe, non-invasive method of applying extremely weak pulsating magnetic fields - https://www.microalpha.com/magnetiopathy_scale_of_energy.html.
- **Bee-2 device should be mounted in the center of any wall of hive (on outside surface) to provide maximum performance.**

Bee-2 device for Magnetopathic treatment for resting bees in one hive

Diameter - 1"

High - 1"

Maximum Width - 2"

AN-Bee-2 \$ 50.00 CAD

- As you probably know this device is self-winding, in other words it does not require any source of external power.
- Forevermore it is a maintenance free device with guaranteed minimum 50 years of non-interrupted functionality (life time warranty)

Lightning EMF Protection

<https://www.lightningfreezone.com/>

Ultimate lightning protection based on our invention. NASA confirmed that lightning is attracted to very specific places connected to distorted part of Geomagnetic radiation named Schumann Resonances. More on it is on our dedicated website <https://www.lightningfreezone.com/>.

We have ready Neutralizer for this type protection. It was challenged number of times in very violent thunder storms with 100% protection for area of 2 sq. km – no single lightning in protected area. In the same time in our neighborhood Mississauga was over 10,000 lightning discharge in 1 hour.

Depends on type of your application you may use “Protection from Above” or “Protection from Below”. Please contact us if you have any question.

Warranty Terms

- MicroAlpha warrants that the Products will be free from defects in materials and workmanship for a period of lifetime warranty (50 years). MicroAlpha's sole liability under valid warranty claims will be limited, at MicroAlpha's option, to repair or replacement of defective Products during MicroAlpha's normal business hours. Upon replacement, any removed Product shall become the property of MicroAlpha. All warranty replacement will be limited to Product malfunctions which, in the reasonable opinion of MicroAlpha, are due and traceable to defects in original material and workmanship. In order to enable MicroAlpha to properly administer this warranty, Customer will notify MicroAlpha promptly in writing of any claims and will provide MicroAlpha with the opportunity to inspect and test each Product claimed to be defective. This warranty does not extend to Products thereof that have been subjected to misuse, abuse, improper application, alteration, accident, negligence or incorrect repair or servicing not performed or authorized by MicroAlpha. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES FOR A PARTICULAR PURPOSE. MICROALPHA SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE OR EXPENSE OF ANY KIND WHATSOEVER CAUSED BY THE EQUIPMENT OR BY ANY DEFECT THEREIN. THE USE OR MAINTENANCE THEREOF, OR ANY SERVICING OR ADJUSTMENT THERETO, NOT EXPRESSLY COVERED BY THE WARRANTY CONTAINED HEREIN.
- Limitation of Liability

In no event whether in contract (including negligence), strict liability or otherwise will MicroAlpha be liable

- For special, indirect or consequential damages or for any lost profits, or

To Customer or any other person for an amount greater than the purchase price actually paid to MicroAlpha for the Product with respect to which such liability relates

MicroAlpha Inc. Warranty Policy

Warranty

Due to climate changes and unpredictable weather conditions we are increasing our "MONEY BACK GUARANTEE" for all customers to 1 YEAR. You will now have a "1 YEAR MONEY BACK WARRANTY" from the date of your order.

... Also for Farms, Nurseries, Vineyards, Honey Bee Farms and other agricultural type businesses. You will now have a "2 YEAR MONEY BACK WARRANTY" from the date of your order.

Major Limitations:

- Physical Damage
- Improper Grounding and/or Grounding Connection for Neutralizer
- Usage of the chain instead of provided string for Peace Ball

1 YEAR MONEY BACK WARRANTY

- For Peace Ball and Neutralizer is unlimited number of upgrades (no time restriction)
- **For Intimate Peace Ball and Peace Disk is no "Money Back" warranty and no upgrades**

We offer 1 Year Money Back Guarantee with most of our products. Each product section states its specific return policies. In most cases, the return policy includes a Full Refund (minus the shipping charges); but with a number of product lines, such as our Peace Ball, there is also a re-stocking fee. This is clearly explained in the return policy of each specific product line. This page outlines our General Return Policy. Again, all of this is clearly explained in the return policies of the specific products, which you can read about in those product sections on this page.

Within the first Year in your possession, you may return your item for any reason. If that is your desire, you first need to Contact Us and tell us the issue. We will try to resolve it for you. If that is not possible, you can send your item back for a refund, on all of our Peace Balls and Neutralizers. You can read about that on our Peace Balls and Neutralizers Return Policy section. We must receive product before the end of guarantee period.

*** IMPORTANT NOTE:

- **** Do NOT just send the item back. You need to Contact Us First and make arrangements for shipping it back to the correct location.**
- **** Custom declaration description – is obligated if you are in different country than Canada. In declaration you should use one of the descriptions listed below according to reason of your return:**
- **Canadian good - temporary import for warranty repair**

- Canadian good returning – broken, defective
- Canadian good returning for replacement
- Canadian good returning for refund under "money back" warranty terms
- In addition you need to put "x" in the box near the statement that you accepting paying custom fees if they apply. If we receive package with custom to pay – this payment will be subtracting from your account or money for refund.
- ** You can upgrade Peace Ball and Neutralizer you bought from MicroAlpha Inc. paying difference in price plus a \$15.00 restocking fee (if product has no physical damage). Number of upgrades is unlimited and is no time restrictions for upgrades (Peace Ball and Neutralizer). Upgrades are with no Money Back Warranty.

Damage:

If you have any damage of any kind to your item and you want to return or exchange it, you must contact us within the FIRST 7 DAYS in your possession, and we will replace the damaged item, at no extra charge to you (accept shipping back costs - you need to cover it), or we will accept your return (accept shipping back costs - you need to cover it). If you have such damage, and you contact us AFTER the first 7 days, you will have to pay to get that damaged item replaced, and if you want to return the damaged item for a refund, you will be charged a 25% restocking fee. This is the reason why: If you are contacting us about a damaged item, and it is after 7 days in your possession, it is possible that it was damaged while in your possession, and we are not responsible for such damage.

Conditions for Getting a Refund

In order to get your refund, we must receive your item in PERFECT CONDITION, including all instruction booklets and sheets. So, it is very important that you package your item in the same (or similar) protective packaging materials that it came to you in. If there is any damage in shipping, we cannot give you a refund, and you will have to put in a claim with your shipper. UPS is usually very fast about paying on their claims. You must pay your own shipping charges when sending back an item. When we receive your item and we make sure it is in perfect condition, we will issue you your refund.

*** IMPORTANT NOTE - Your Refund will be issued in 3 WEEKS from the time we receive your item.

The Way You Receive Your Refund:

We have to pay a transaction fee on all credit card transactions, including Credit Backs, but we will absorb that fee for refunds Under \$200. So for a refund under \$200, you will get a credit back and receive an email confirmation of that refund transaction. But if your refund is for \$200 or more, your refund will be in the form of a Check, which you will receive in the mail. Check will be issued 21 days from the day we receive products in perfect conditions.

*** IMPORTANT NOTE – Return from PayPal and Credit card orders – after 60 days from your original order (to the day we received product for refund) additional bank charges will apply 4% including cost of shipment).

Neutralizer Return Policy section

We offer a 1 YEAR Money Back Guarantee for the Neutralizer line of products. In order to get your refund, we must receive your item in PERFECT CONDITION, including all instruction booklets and sheets.
